GF Linamar is committed to workplace health and safety.

GF Linamar’s objective is to focus on continual improvement in order to enhance our health and safety performance. GF Linamar will focus on meaningful actions designed to meet applicable legal and other requirements.

GF Linamar believes a safe and healthy workplace is created through the combined efforts, consultation and participation of management, supervisors and employees.

Management is responsible for establishing and maintaining occupational health and safety programs; ensuring compliance with GF Linamar defined practices and policies and **providing resources to support this commitment throughout GF Linamar, for every person.**

Supervisors ensure employees understand and comply with safe work practices and procedures and are responsible for maintaining a **safe and healthy working environment.**

Employees actively participate in the continual improvement and maintaining a healthy and safe working environment by learning and applying safety procedures and practices.

The GF Linamar’s Health and Safety Committee **works in cooperation** with all personnel to actively participate in, contribute to, and support GF Linamar’s health and safety programs.

Prevention of occupational injuries and illnesses is the goal, and all parties at GF Linamar will work together to eliminate hazards, reduce risks and ensure a safe and healthy workplace, and the successful implementation of this policy.
